Re: Case No. 21-4085-INV – 2022 Standard Offer Program RFP Recommendations

Dear Ms. Anderson:

Green Mountain Power appreciates the opportunity to comment on the Standard Offer Facilitator's ("Facilitator") 2022 Request for Proposal ("RFP") recommended award and reserve groups. We believe that the Facilitator's recommendations are reasonable, including the overall volumes recommended and the excluded proposals.

We were pleased to see that the recommended awards include 3.172 MW of capacity in the technology diversity block. This indicates that the program is meeting its goal of encouraging the development of a number of different renewable technologies that should benefit Vermont's electric customers by providing complementary output profiles.

If you have any questions, please feel free to contact me at (802) 342-2879 or at Andrew.Quint@GreenMountainPower.com.

Sincerely,

Andrew Quint
